PROFESSIONAL SUMMARY

i'm a computer science student pursuing a Higher National Diploma, with practical experience in frontend web development, graphic design, and UI/UX design. Currently undertaking software development and frontend development internship experience at JuneInfra and building web projects using HTML, CSS, JavaScript, React, and Tailwind CSS. Interested in developing responsive, user-friendly web applications and currently strengthening backend development knowledge with the long-term goal of becoming a full-stack developer.

SKILLS

Html, Css3, Tailwindcss, Javascript, React, Git, Github, vite, supabase, Database-integration, Collaboration, Willingness to learn

---

WORK EXPERIENCE

Frontend Development Intern

JuneInfra.
May 2025 – Present

- Gaining practical experience in software development and frontend development.
- Applying frontend technologies to build and improve web interfaces.
- Developing skills in responsive web design, component-based development, and debugging.
- Continuing to build knowledge of backend development as part of a longer-term full-stack development goal.

Student Industrial Work Experience Scheme (SIWES)

Codar-Tech, Ikeja Branch.
Nov 2023 – 2025

- Completed industrial training that marked the beginning of my coding journey and introduced me to web development.
- Learned the fundamentals of HTML, CSS, and JavaScript for building and styling web pages.
- Gained practical experience creating responsive websites that adapt to different screen sizes and devices.
- Built a foundational understanding of frontend web development and developed an interest in pursuing software development professionally.

EDUCATION

The Federal Polytechnic, Ilaro, Ogun State

Federal polytechnic ilaro.
2025 - Present

Higher National Diploma (HND)
Computer Science

The Federal Polytechnic, Ilaro, Ogun State

Federal polytechnic ilaro.
2022- 2024

National Diploma (ND)
Computer Science

CAREER OBJECTIVES

Full-Stack Developer Internship

To secure a Full-Stack Developer Internship where I can contribute my frontend development skills, learn from experienced developers, and continue developing backend, database, and API skills while helping build reliable web applications.
